

Lent and Holy Week are historically all about discipling people in the way of Jesus. Palm and Passion Sunday were two separate Sundays for long time.

Those who want to see Jesus dead were among those who were just cheering for him. When he doesn't deliver what they want, they turn on him.

Grace, love, mercy, and forgiveness is great until it gets in the way of what we think we really want.

A mob is the most dangerous thing one can get caught in. A mob has no logic or reason, and no sense of right or wrong or morals. People who as individuals would not do bad things will certainly do them if they are in a mob where responsibility is diluted and spur of the moment actions happen.

As the Body of Christ (The Church) we cannot hide behind a mob...we cannot recruit others to cover our sin....we cannot use politics, religion, social media or even right and wrong to justify hate and injustice.

## The passion of Christ exposes us... our sin is revealed! This is our starting point!
